

## **91.INTRODUCE YOURSELF.**

Good morning sir/mam

It's my pleasure to introduce myself.

My name is Sachin patil.

I am from Kosamba .

I am 24 year old .

I have done my graduation in be mechanical from GTU in 2022.

I am doing data analyst course from tops technologies.

My strength is self motivated , positive towards work, hard working, Good listener, discipline.

My weakness is I can easily believe everyone.

My hobbies are cricket, Listening to music, traveling.

My short term goal is to get a job and improve my skill.

my long-term goal is that I want to see myself in a high position with knowledge and more skills.

## **2.WHY DID I CHOOSE DATA ANALYST ?**

When I completed my graduation in B.E mechanical in 2022 .After I join as maintenance engineer in upl company. In during safety training session. I met a one friend. He is also mechanical engineer but currently working as an data analyst position in that company . Then I asked him about data analyst field . Then he gave me some information regarding data analyst. I also see all video and material regarding data analyst on online platform ..Then I also started getting interested in the field of data analyst. That time I am thinking to switch career as mechanical engineer to data analyst.

## **3. What Motivates you to do good Job?**

I see how my parents are doing hard for me, how they are struggling for a better future. My parent's sacrifice motivates me the most.

Secondly, I also motivate myself to work hard and earn a leading secure position in my carrier for my own future.

## **5. What are the expectations from the company?**

My expectation from the company to be provided work environment where I get to use my skills so that I can contribute to the company and also grow with this company professionally and personally. I also want to work on different kinds of projects with different teams so that I could work in an environment that propels my growth beyond this job description.

**6. Whom do you consider as role model?**

The role model of my life is my sister. Whenever I am down my sister helps me to push my limits, and she always keeps me on the track. She was scolding me whenever I do something wrong. She is everything for me, I still got inspired from her, how she manages every problem in every situation.

**7. Can you work under pressure or deadline?**

Yes, I can work under pressure. Working under pressure helps me face and overcome challenges in life. And it gives me the responsibility to do things in a good way..

**8. How long would you work for us if hired?**

I will work with the company as long as my presence benefits both the company and mine in parallel. So your company gains good results, and I can be in a good position to improve my skills.

**9. If given a choice would you like to work in a team or standalone**

I definitely prefer to work on a team. It is important for me to share my ideas with colleagues, and to hear critical feedback from their side. What's more, I like the **social aspect** of going to work. But It helps with motivation. At least that's my opinion.

**10. What is your salary expectation?**

As a fresher, my first priority is to enhance my skills, knowledge, and experience. Coming to my salary you are right person to decide based on my skill and knowledge. I will expect a considerable salary for this position that will help me to achieve my economic needs.

**11. Why should we hire you?**

I believe that everyone starts with a beginning, I need a platform to prove my abilities and skills. I think your company is the right place to explore my abilities. I need to be a part of your growth. I will do my level best.

**12. Where do you see yourself five years down the line?**

In 5 years, I see myself as one of the responsible and successful employees of your company.

By learning and improving everything will fall into place. And in that moment I'm capable of handling any situation and willing to expand my skills and experience to other people.
